

**Puget Sound TRT--DRAFT Agenda
Tuesday-Wednesday, October 15-16, 2002
NWFSC Seattle, WA--Room 370W**

Tuesday, October 15

- 9:00 Watershed guidance document—discuss draft** (Jim, Norma, Ken)
- 10:30 Technical analyses for case study watersheds**
*landscape process approaches (Bob, Kit, Bill)
*ecological and evolutionary processes & hatcheries (Ken et al.)
*linking habitat actions to landscape processes or habitat conditions (Bill, Mike P., et al.)
*harvest effects (Norma)
*case study tasks and schedule, participants
- 12:00 LUNCH**
- 12:30 Estimating current productivity of chinook populations** (Jim)
- 1:00 Approaches to estimating viability for ESUs and populations with limited data** (viability group)
- 2:00 Estimating estuarine capacity** (Bill)
- 2:30 Defining major diversity groups** (Jenny Moslemi)
- 3:00 population identification for HC summer chum, next steps for Ozette sockeye** (Mary, Ken)
- 4:00 TRT business**
* TRT roles draft, translation of blue paper by Shared Strategy, inquiry from S. Cramer
- 4:30 ADJOURN**

Wednesday, October 16
Joint meeting with Shared Strategy work group

- 9:30 am** **Brief overview of 6-month joint work program**
- 9:45** **Cursory reviews of watershed plans**
 *questions to be addressed, particulars of plans
 *assignments, schedule
- 10:30** **Watershed guidance document**
 *schedule and content
- 11:30** **Assessing current activities (in H's) for each population—overview by work group**
- 12:00** **Ongoing, coming attractions**
 *Watershed case studies—progress, proposed technical analyses
 *discussion of population risk categories, uncertainty, and ESU roll-up
 *status of TRT roles review
 *future meetings (bring your calendars!)
- 12:30** **ADJOURN**
